COMPANY OVERVIEW

Exline Industrial Solutions, a family-owned company since 1872, has been providing nationwide shop and field services for a diverse set of industrial markets. Over a century of experience gives us special insight into your requirements. Our technical expertise enables us to restore, and even in some cases enhance the performance and service life of your equipment.

We offer these services utilizing our 135,000 sq/ft industrial facility in Salina, Kansas, along with our facility in Sherman, Texas. Let Exline Industrial Solutions be your single-source solution and your best choice for long term support.

QUALITY POLICY STATEMENT

Exline, Inc. will make every effort to meet or exceed all customer requirements as well as those set forth by regulatory agencies. We will strive to continually improve the quality of our products as well as our processes and services.

INDUSTRIES SERVED:

AIRCRAFT & AEROSPACE

CEMENT & AGGREGATES

CHEMICAL & PETROCHEMICAL

FOOD & BEVERAGE

AGRICULTURE

MARINE

MINING & METALS

POWER GENERATION

OIL & GAS

PULP & PAPER

PLASTIC & PVC

WATER & WASTEWATER

SAFETY:

At Exline Industrial Solutions, safety is our business, and our employees value prevention over emergency response. Preventive measures are taken to assure that repairs and services are conducted safely with the end goal of creating an injury-free work environment for Exline team members and customers. Having over 1.5 million hours without a work-related lost time injury and team members who have gone over 5 years without missing one day due to work related injuries serve as testament to the precautionary measures we abide by at Exline. Our efforts are spent heavily on creating a productive and safe work environment, which has directly resulted in having a record-low Total Recordable Incident Rate (TRIR) year after year.
